1 Use Access Code
NSCorp500

When opening the app for the first time, you will enter the above code when prompted.

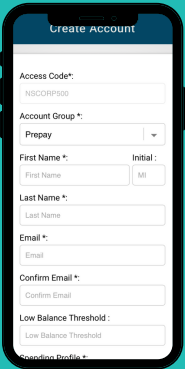

2 Start with A Brief Tour of Features

Swipe or use the arrow buttons, click Get Started when you are ready to continue. Once the tour is complete, you will see the login screen. Click Create Account.

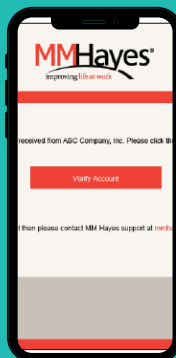

3 Set-up Your Account

Fill in the required information. Click Create Account. Select Prepay as your Account Group. You will see confirmation and receive an email at the address you provided.

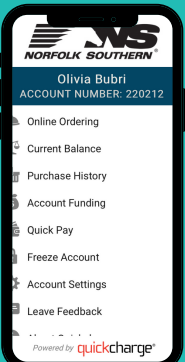

4 Verify Your Account

From your email, open and click Verify Account to confirm your account. Create your password and enter a second time to confirm and click Create Account.

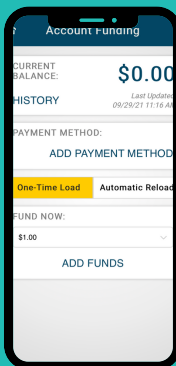

5 Log In to Your Account

Go back to the app and log-in using the email address and password you created.

6 Add Funds

Click on Account Funding. On your first time using the Account Funding feature, click Add Payment Method to add your credit or debit card. To add funds on demand, select One-Time Load. Choose an amount and click Add Funds. You can also set up automated funding that will reload the account when the balance drops below a certain threshold. Select Automatic Reload to do so.

7 Place An Order

From the main page, select Place an Order and choose the menu you would like to view, browse items and add to your cart, check out. Pick up your order from your order location.
