

# Merck Catering Services

## Price Match Guarantee

As the onsite provider of food service for Merck, we at FLIK understand the service and budgetary requirements of the Merck business. The Merck catering menu was created and priced to meet that requirement. If you feel that an outside vendor can provide an equal service at a lower price, we will match the price. It's that easy!

### How it works

1) Obtain a quote from any catering company that is providing a like for like offering to the Merck catering menu. The catering company must be able to deliver to the site in which you would like to host your event.

Example: Catering quote for a meeting taking place in Kenilworth must come from a catering company that is able to delivery to Kenilworth.

2) Send the quote to Anna Ing at least five business days prior to your scheduled event. Anna will get back to you within 24 business hours. [anna.ing@merck.com](mailto:anna.ing@merck.com)

3) If the quote provided is priced lower than the Merck pricing listed in Resource Scheduler and the offering is like for like we will match it. Anna will instruct you to then place your order in Resource Scheduler, she will then go in the system and lower the price!
